WORK EXPERIENCE

Segura Invendors pvt.ltd

Fullstack web developer   05/05/2024 - 20/06/2024

Completed an internship as a full-stack web developer, gaining hands-on experience in designing, developing, and maintaining web applications. Worked on both front-end and back-end technologies, ensuring responsive design, efficient database integration, and seamless user interactions."

EDUCATION

kl university

Bachelor of Technology - Internet of Things - 9.68   2022 - 2026

Oxford vit junior college

MPC - 96.5   2020 - 2022

PROJECT

Smart home Automation (Arduino) 🔗
- Developed a system with automatic light control, motion detection, and gas leak alerts using sensors.
- Demonstrated skills in embedded systems and IoT through the implementation of automated door operation.

Automatic Water Dispencer(Reactjs,NodejsArduino)
- Designed an automatic water dispenser system combining React-based frontend for user interaction and Arduino for hardware control.
- Implemented real-time monitoring of water levels, automated dispensing process using sensors, and ensured seamless communication between frontend and hardware for efficient and user-friendly experience.

The Newsmania(Html,css,Mysql,Nodejs)
- Developed a dynamic, real-time news aggregation web application using React. Integrated multiple news APIs to pull content from diverse sources, providing users with up-to-date news across various categories. Focused on building a responsive, user-friendly interface and optimizing performance for an engaging user experience. Implemented search and filter functionality for easy navigation and content discovery.

SKILLS

- **Languages:***Html,Css,Javascript,c,python,Sql*
- **Frameworks:***Reactjs,Taliwand Css*
- **Tools:***GIT,MYSQL,PostgreSQL*
- **Platforms:***Linux,Arduino,Raspberrypi,AWS*
- **Soft Skills:** *Leadership,Time Management,communication skills*
